

WORK LIFE

WE'RE WORKING HARD TO KEEP OUR WORKSPACES SAFE FOR YOUR RETURN TO WORK

#1

We'll be reducing the overall capacity of the space including available work stations, breakout and communal areas to allow for 6ft distances to be maintained and avoid overcrowding

#2

Hot desking won't be quite the same for now - when you arrive and find a free space, this will be your space for the duration of the day

#3

We'll provide replaceable desk mats which you can easily dispose of when you choose to leave

#4

There will be increased cleaning for high touch points such as door handles, sink taps, coffee machines, lift buttons and printers

#5

Hand sanitiser and hand washing facilities will be available throughout the space, shared areas, and meeting rooms

#6

We will identify socially distant routes with clearly laid out footpaths throughout our spaces

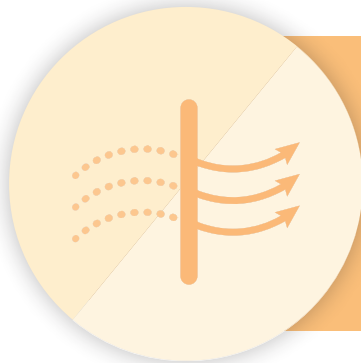

#7

We're reducing the recommended occupancy for our meeting rooms and breakout spaces to maintain a 6ft distance and this will be clearly labelled in all these areas

#8

We'll continue to curate an exciting line-up of digital events via Work.Life Anywhere

#9

We've individually sanitised all internal fan coil units in our air systems to maintain high quality air. We'll be regularly monitoring filters and air quality and replacing where needed

We're intending to implement the above measures once the lockdown is lifted and our membership teams return to the spaces.

As soon as the government issues any advice on safety measures regarding our return to work, we'll update the above in line with this.

Stay Safe
Work.Life team ♥
